

Exposed and semi-exposed applications

- Exterior Walls
- Soffits and Ceilings
- Semi-exposed areas usually difficult for plasterboard applications
- Create exterior walls and exterior soffits.

Knauf Drywall: 'Aquapanel External'

- 1988 – First plasterboard site in UK
- Plant at Immingham
- Plant at Sittingbourne

Knauf in the UK

Knauf Drywall: 'Knauf in the UK'

Code for Sustainable Homes and BREEAM 

Typical A+ rated construction using clay plain tiles

Timber trussed rafters and joists with insulation, roofing underlay, counter battens, battens and UK produced clay plain tiles (812410006)

Marley Eternit: 'The roof and our environment'

CPDs We write, design and produce CPD and other electronic presentations in a variety of programmes including PowerPoint, Flash and html.

We can add animations and design fluidity which stimulate your audience and will enhance your presentation.

We can also advise on and help write scripts, hand-outs or notes.

See overleaf for more details...

Some common insulation types 

Mineral fibre

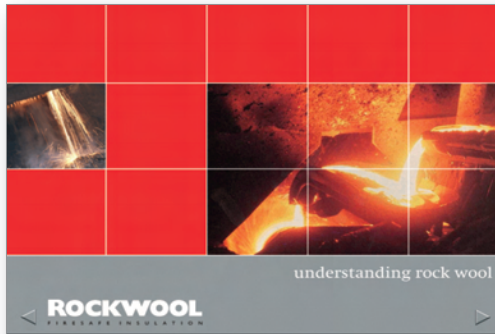

Extruded polystyrene (XPS)

Expanded polystyrene (EPS)

Insulation board (PIR)

Polyurethane foam (spray applied)

RIBA or CPD UK approval

We are happy to liaise with either accrediting body, submit material, implement changes and follow the process through to final accreditation.

CPD seminars though non-promotional in themselves are copper bottomed opportunities to impress 10 or 20 specifiers with your products and company.

A 100 slide, death by Powerpoint CPD is guaranteed to turn them off.

We abide by a few simple rules for all of our CPDs

- be brief
- be visual
- add movement where it can inform most
- minimise on screen text
- maximise on screen content
- create interest
- give people some nuggets **they don't already know**

To do this we create a strong and consistent design template which contains direct and simple narrative information, with clear conclusions.

Animation is used judiciously to add spice and focus attention.

“The standard of CDP's work is so high and I am always 100% happy with it.”

Tanuja Kiley, Knauf Drywall
